YOUR FIRST OFFSHORE BANK ACCOUNT

– HOW TO –

STAATENLOS

Your first bank account in a tax haven

Today we are going to tell you how you can comfortably open an offshore account without having to leave home, within a few hours.

The deposits in the accounts of this bank come 100% gold-plated.

The bank maintains a 100% deposit ratio, it does not offer loans and it does not speculate with clients assets. The revenue of this bank comes from the rates and commissions that it receives for the maintenance of accounts and transactions of its clients.

Note; Tax Free Today is affiliated with this bank, we take a small commission for each account opened there through the links you´ll find here (although if you prefer, you can also access the bank directly, without using our link). In any case, our recommendation is genuine, we have also opened a bank account there and we can recommend their services without hesitation.

Offshore account in Puerto Rico

The bank is located on the Caribbean island of Puerto Rico. An economically stable Caribbean country wich isn't included in the CRS (Common Reporting Standard).

It was founded by the American liberal investor **Peter Schiff**, known for predicting the financial crisis of 2009. He talked about it in his 2007 book "Crash Proof. How to Profit from the Coming Economic Collapse".

Peter Schiff has created a bank according to the philosophy of the Austrian School, that differs from many other banks.

The main caracteristicas of his bank include:

1. **It does not lend money**, it is financed through commissions and fees
2. **It does not speculate** with the money of its customers
3. All their **deposits** are **100% covered**
4. It doesnt multiply money through that big scam we call a fractional reserve
5. This makes the bank **one of the safest in the world**

The Euro Pacific Bank

The bank we are referring to is the Euro Pacific Bank. It doesnt admit US citizens but apart from that, it makes it easy for everyone. Now, before telling you how you can open an account there, some more information about your accounts.

Advantages:

- You can use multi-currency accounts (USD, EUR, CAD, GBP, AUD, JPY, NZD, CHF)
- Minium deposit of **$500**
- Secure internet banking and debit card
- Doesnt requiere physical presence
- Personal assistance by private bankers (at any time through telephone, email or Skype)
- Innovative financial products
- Acceptable rates

Although the bank is financed with the fees paid by its customers, they are not especially high either. Opening the account is free, it is also free to use it with different currencies and broker, as well as the access and use of Internet banking.

Maintaining the account costs $60 per year ($5 per month). It includes a bank card with which you can withdraw money from ATMs around the world.

The most expensive are the **transfers**. For this it would not be advisable to use this bank for your daily transactions (or those of your business). Rather it is a good option to protect and increase your capital.

Incoming transers of up to $12.500 cost **$16**, outgoing **$30.** In the event that the transfers fail, they are canceled and must be reviewed some way, the fees reach **$75**.

But since you´ll probably only use the account to receive money, you probably dont have to worry about it.

You will also have to pay commissions in the rare case that for some reason you need physical reports ($15-25).

Steps for opening an offshore account.

Well, if that has convinced you, we will now tell you how to open your account in the Euro Pacific Bank in less than 24 hours.

Now, here are the steps:

1. Fill in the online form with your personal information

2. Fill in the pre-approval form and send it directly by email

3. Send the docuemnts to the bank (you can upload them online or send them by fax or messenger)

4. Transfer a minimum of $500 to the account within a maximum period of 30 days

The documents that you need:

- Certified copy of your passport
- certified copy of a supply bill (electricity, telephone, water ...), a bank statement or your identity document, in all cases it must show your physical address
- a written reference from a bank
- as an alternative to the bank reference document: bank statement showing current transactions from at least 6 months ago
- The contract for opening your account

As we said, you can send these documents for free through the Internet or by fax, although you can also opt for the more expensive services of a courier.

And thats it!

Never before has it been so easy to open an offshore account. The minimum deposit of $500 makes this account a viable option for anyone.

So you know, if you want to start putting your money somewhere safe, this could be a great alternative.
